WeightIT-PUBLIC

Manage Public Weighbridge remotely

Weight-IT PUBLIC: public weighbridges management software.

Main Features

- Management of the weighing through a self-service totem, in complete autonomy.
- Management of the RFID reader with rechargeable BADGE for the payment of the weighs for regular users.
 1. With the badge there is no cash circulation,
 2. There are no thefts,
 3. The recharge can be done electronically,
 4. The badge can be used on different scales within the same municipal territory.
- Printer management for exit/entry receipt and payment summary
- Management of payment through token machine
